ABOUT ME

Non-Profit Leader, Problem Solver, Collaborator

I worked on several projects that demonstrated my ability to ensure cross-browser compatibility and optimize performance, as well as to collaborate with back-end developers to create a seamless integration between the front-end and back-end. I am committed to writing clean, maintainable code that adheres to industry standards and best practices. I am passionate about keeping up-to-date with the latest web technologies and continually expanding my skill set. My goal is to craft seamless web experiences that delight users and meet business objectives.
