Work Experience

Full Stack Developer — Sep 2024
furniture Business owner | Karachi

Designed and developed a custom website for a furniture business, including robust CRUD operations for managing product inventory. Created a dynamic product catalog and integrated WhatsApp chat to facilitate e-commerce transactions.

Front-End Developer — Jun 2024
Fiver | Italy

Demonstrated ability to develop custom one-page themes for clients in various industries, including marketing agencies, food businesses, and portfolios. Successfully delivered websites for clients in Italy, ensuring optimal design and functionality to meet their needs.

Projects

K-Medicos

k-medicos.free.nf
Created a comprehensive e-commerce website for online medicine purchasing, featuring a unique function to analyze potential drug interactions and alert users if two or more medicines may cause allergic reactions when taken together. This innovative safety feature sets the website apart from its competitors.

Master Wood Works

master-wood-works.free.nf
Designed and developed a custom website for a furniture business, including robust CRUD operations for managing product inventory. Created a dynamic product catalog and integrated WhatsApp chat to facilitate e-commerce transactions
